Vention CDSB0 USB Bluetooth 5.0 Adapter

The Vention CDSB0 USB Bluetooth 5.0 Adapter is a device that connects to any USB port to add Bluetooth capability to a Computer or laptop. It has an improved RTL8761B Bluetooth 5.0 chip, which provides consistent signal transmission and makes it a dependable instrument for wireless communication. This adapter can connect up to seven devices at once, allowing users to connect various devices such as Bluetooth speakers, earbuds, gaming controllers, and more. It can also enable a latency-free connection to Bluetooth accessories such as keyboards and mice. The Vention CDSB0 USB Bluetooth 5.0 Adapter may be used for a variety of tasks, including uploading images and files without the need for a network, printing high-fidelity pictures without the use of a wire, and restoring CD-level Hi-Fi sound quality for a better listening experience. Because of its integrated antenna amplifier, it offers a signal coverage range of up to 20 meters. This device is compatible with many Bluetooth versions and operating systems, and once connected to a Computer, it will automatically connect for further usage. In the event of any driver installation troubles, customers can contact Vention's customer care or visit their website for assistance.
