

## CCTV MALE/FEMALE POWER CONNECTOR

Sale Price: 60.0

PRODUCT ID: 01219

The CCTV Male/Female Power Connector is a basic but essential accessory for security camera installations. It consists of a male and a female DC barrel-type connector designed to provide stable 12 V DC power to CCTV, IP, or HD cameras. Thanks to its plug-and-play design, it's easy to connect or extend power cables as needed — useful during installation, upgrades or repairs. The metal contacts ensure reliable power delivery while the plastic housing provides insulation and durability. This connector is widely compatible with standard surveillance cameras, making it a convenient and practical component in any CCTV setup.
